#### E. Notes

- a) The O2 TV service can be established for a reduced price only if the subscriber undertakes to use the service for at least 24 months of its establishment. If for any reason whatsoever the service is cancelled before the 24-month deadline, the subscriber is obliged to pay O2 immediately an additional payment for the period remaining to the end of the 24-month deadline. This payment will be the ratio of the remainder of the duration of the obligation applied to the sum of CZK 831.09 without VAT (CZK 989 with VAT).

If a subscriber requests a change of tariff from O2 TV Komfort, O2 TV Plus, O2 TV Extra or O2 TV Extra Plus to O2 TV Start, it will be assumed that the contractual relation established under the terms of the contract on the provision of the O2 TV service has terminated on customer's request, with all the consequences ensuing therefrom (the subscriber will have a duty to pay O2 immediately the additional payment outlined in the previous paragraph) and subsequently to the provision of new O2 TV digital television.

This payment will be the ratio of the remainder of the duration of the obligation applied to the sum of CZK 499.16 without VAT (CZK 594 with VAT), and
- (ii) for the installation fee for the installation carried out by a technician (if the subscriber avails itself of the reduced price of installation by technician) for the period of time remaining until the 12-month deadline elapses from the establishment (activation) date. This payment will be the ratio of remainder of the duration of the obligation applied to the sum of CZK 1,509 without VAT (CZK 1,795.71 CZK with VAT).
- b) The ADSL service refers to high-speed access to the internet by means of the O2 fixed network, if on the customer's request the O2 TV service is established on the same access number. This also applies if O2 is not the service provider.

- h) If the O2 TV contractual relationship ends before the subscriber has paid all the instalments for the set-top-box, all the remaining payments become payable and the subscriber is obliged to pay O2 immediately. If the subscriber does not make any of the repayments for the set-top-box, all the remaining payments will be payable and the subscriber is obliged to pay O2 immediately.

O2 will allow a subscriber upon request to pay the remaining instalments for the set-top-box at any time during the validity and effect of the contact on the provision of O2 TV. However, the premature repayment of the price of this equipment will not change the price.

- i) Establishment of the O2 TV service by O2 within the deadline of 24 months during which the subscriber undertakes to use the O2 TV service does not affect the right of O2 to payment of amounts owed from the subscriber and the additional payment of the price of establishing the service. This does not apply if the O2TV service which was established with an undertaking is transferred to another subscriber. In such a case the duty to use the service for a minimum of 24 months or the period remaining of the 24-month period and the duty to pay the amount owed is transferred to the new subscriber. If the future subscriber refuses to accept the contractual obligation or to pay the amount owed, the current subscriber is obliged to pay the price for the establishment of the O2 TV service and the amounts owed.
